

NEWS OF THE MORNING.

The deadlock at Albany continues unbroken.

The December coinage was \$10,450,000, of which \$2,300,000 was in silver dollars.

Snow fell throughout New England and New York Tuesday night to the depth of a foot to 18 inches.

The New York Herald gives the following casualties by yesterday's fire: Two dead, 14 missing and eight injured.

The President has nominated William H. Armstrong of Pennsylvania (ex-member of Congress from the Williamsport district) Commissioner of the Pacific Railroads.

Tuesday evening Denis Kearney, at Pixley's Hall, organized the first branch of the Workingman's Club of the Twelfth Ward. Sixty members signed the roll, and officers were elected.

Chicago was the scene yesterday of a cowhiding administered by Miss Bellman to a young man by the name of Simon. A number of blows were well laid on. Cause defamation of character.

Captain Eads says the transcontinental railroads are using strenuous efforts to defeat his ship canal bill. He also asserts that Congressman Page has worked for such a construction of the Committee as will defeat the measure.

A Washington telegram says it is understood that there is to be a change of proprietorship, and probably a change in the management of the National Republican of that city (of which George C. Gorham is the editor) to take place within a few days. It is to be the organ of the administration.

Oscar Wilde attracted to Music Hall Tuesday evening at Boston, an audience which filled every seat. Sixty Harvard students appeared in dress coats and knee breeches and carrying lilies and sun-flowers. The aesthete was heartily gaped and showed unmistakable anger.

According to yesterday's dispatches the trouble between the President and Mr. Blaine over the Trescott instructions gets more interesting. Blaine denies his personal responsibility, and the President dislikes being called timid. One correspondent says that Blaine has staked his political future on coming out victorious.

The debt statement shows a reduction of the public debt during January of \$12,978,836; cash in the Treasury, \$246,025,468; gold certificates outstanding \$3,183,120; silver certificates, \$68,999,070; certificates of deposit, \$11,400,000; refunding certificates, \$559,100; legal tenders \$346,681,016; fractional currency, \$7,069,493.

Tuesday morning a special Union Pacific train consisting of an engine and pay-car, ran into freight train No. 8 near Fort Steel, badly wrecking the caboose of the latter train. Conductor Hobart and brakeman Seely who, were in the freight caboose, were badly injured, and Seely died in the afternoon. The fireman on the pay-car engine was slightly injured. Conductor Hobart will recover. Paymaster Joselyn and his clerks were not injured. no damage being done to the pay-car.

COMING AROUND.

A late number of the Chicago Mining Review says:

In marked contrast to the suicidal policy of the Congress of the chief silver producing country of the world, England is taking decided steps toward the remonetization of silver which has been, for financial advantage, demonetized, and the latest from the German Reichstag reports a motion urging the Government to come to an understanding with other powers in regard to the introduction of international bimetallic currency. It is also stated that many members of the Reichstag and Landtag, of the Conservative, Free Conservative, and Centre parties, have joined an association for the promotion of a bimetallic currency in Germany.

To secure a prompt return to bimetalism, all that is required is for the United States to place the coinage of silver on the same basis as gold. Those nations that have tried the experiment of a single gold standard are now ready to return to the old way, if the country that is most interested in the subject would only set them the example. We do not need additional facilities for balancing the accounts between banks and great merchants, but do need more money among the masses. It would seem a little strange that there should be any opposition to placing silver on the same basis as gold, but the National Banks are earnestly against the measure for this reason: They are now furnishing the people with bills of small denomination, which would speedily be replaced by silver under a free coinage law. We certainly hope the present Congress will give the much needed law, but acknowledge the hope is very small.

MUTUAL BENEFIT SOCIETY.

The rapid increase in the number of societies organized for the care of the sick and the payment upon death of members, of a certain sum of money has nearly ruined the business of life insurance in the United States. Of course the persons who have grown enormously rich out of this business, do not give up without a struggle, so we have all sorts of stories, and assertions going in regard to the stability of the Mutual Association. The companies that have made a business of life insurance boldly assert, that no plan can last for a long time that does not accumulate a fund upon which they can draw in the remote future. The fact is exactly the reverse, the "fund" of the business company, is one of its weakest points. It has been the history of fund companies, that after a time somebody has stolen the fund, while the mutual association never having any fund, never loses anything. Another reason why the fund is needless is that it does not benefit the persons assured who pay a certain amount into it every year, it goes on accumulating year by year and has reached in one case many millions, more in fact than the entire capital of all the banks in the great city where the company is located. This fund has been growing for forty years, and if it keeps on for fifty years more it will amount to more than a billion of dollars, and still it is not one particle of benefit to the persons who are assured by the company.

Another reason for the growth of the Mutual Society, is that the cost of insurance in them is less than one-half what it is in the companies that make insurance a business. Mr. J. L. Clark, Insurance Commissioner for Massachusetts, says that it takes about one-half of all the money collected by the business companies, to pay expenses while in the Mutual Societies it only required about four per cent. The truth is a few persons have grown enormously rich by managing life insurance companies, and have charged more than double what the insurance was actually worth, and the public have found it out. Mr. Clark says after giving the results of the Odd Fellows Endowment for one year, "these figures are the best answers to the many queries constantly made. 'How can fraternal societies exist when their members only pay about half as much as is charged by outside organizations for guaranteeing the same amount?' It is because the money collected for assessments goes directly to the payment of the death loss, and for no other purpose, and in such cases it does not require but half the amount that would otherwise be needed."

This is the whole thing in a few words. Fraternal Societies are of ancient origin, and for many years have been the theme for a certain percentage of ungenerous criticism upon. Still, the Societies have lived, and their antagonists have been forgotten long ago. Thus it will be in the future.

The Jeannette Crew.

The New York Herald's Irkutsk special says: Lieutenant DeLong's party has been traced to a definitive locality on the west bank of the Lena. Engineer Melville and the Russians are searching ardently. Lieutenant Chipp's little boat has not been seen since September. The gale doubtless swamped her. If she is not found before Spring I will charter the steamer Lena and search first between the rivers Olenok and Kohna. The Jeannette entered the ice near Herald Island on September 6th, 1879. Her forefoot was twisted from the first of January. We pumped for 18 months. The vessel drifted to the northwest during 21 months. She was crushed and sunk on June 21st in latitude 76 degrees 15 minutes north, and longitude 156 degrees 20 minutes. She discovered Jeannette, Henrietta and Bennett islands. We made our retreat over the ice to New Siberia islands, thence in boats to the Lena Delta. Engineer Melville was given charge of a boat by DeLong. I was behind. Hearty and intelligent help was rendered by the Russians. Everything possible is being done.

JOHN W. DANENHOWLE.

Secretary Hunt has received the following from Hoffman:

St. Petersburg, Feb. 1.—Danenhowler telegraphs: "Report my arrival with nine seamen. The sick are better. De Long has been traced to a definitive locality which Melville and the Russians are searching ardently. If Chipp is not found before Spring may I charter a steamer and search the coast and islands between the rivers Olenok and Kolyuk? If yes, send two active line officers to assist. The co-operation of the Russian authorities is hearty and intelligent."

The following telegram was sent yesterday afternoon through Minister Hoffman at St. Petersburg to Danenhowler:

"Two officers will be sent. If your health admits remain and continue the search for the missing parties."

HUNT, Secretary.

A stone church, built two hundred years ago by Puritans, is used by Unitarians at Hingham, Mass.

SPLINTERS.

Butte City had a 20,000 fire last Friday morning.

Of 601 convicts in the Arkansas State Prison more than 100 are murderers.

The census of 1890, when it is all published, is going to be as big as a cyclopaedia.

The importation of potatoes from Ireland is just now very large, and Chicago grocers are advertising them for sale as novelties.

For the first time since the resumption of specie payments, the United States is seriously threatened with an outflow of gold to Europe.

Ex-Governor Shepard of Washington, who is mining in Mexico, has been bitten in the leg by a tarantula, and will lose the leg.

Edith Gray is a variety actress who charms her audiences by her shrinking bashfulness and fragile beauty. Still she fired four shots at a gambler in Council Bluffs.

Simply from lack of remunerative business, six insurance companies of New York have within the past five weeks retired from the field.

Mrs. Keifer, the wife of the Speaker, dreads, "bangs," "crimps" and "frizzes," and wears her dark-brown hair parted in the middle and smoothed down plainly on each side.

The combined force of the steam-engines of the world is estimated at 46,000,000 horse power. This is considered equal to about twice the available working power of the entire human population of the globe.

The vastness of the improvements on Long Wharf, Oakland, including the new depot, the mole and the ferry slips, will be better appreciated when it is stated that the work will cost, when fully completed, nearly \$1,000,000.

Josh Billings disposes of Colonel Bob Ingersoll in the following quaint manner: "I wouldn't give five cents to hear Bob Ingersoll on 'the mistakes of Moses,' but would give \$500 to hear 'Moses on the mistakes of Bob Ingersoll.'"

Tyndall's theory that heat is simply motion in another form must be true. Strike a piece of iron and it becomes hot. Strike a man and he immediately boils over. There is however one exception to the rule. Strike a warm friend for a short loan and he at once becomes as cold as an iceberg.

Terry McMahon and John Potter quarreled in a saloon at Eureka yesterday and agreed to go out into the back yard and fight it out. The latter was getting the worst of the fight, when he took out a huge pocket-knife, stabbing and hacking the former terribly. McMahon will probably die. Potter is in jail.

The cold spell which set in about three weeks ago reached its climax up the railroad Sunday night, which was the coldest night of the winter according to reports. At Beowawe, the mercury went down to 22 below zero; at Carlin, to 30; at Halleck, to 33; and at Wells, to 32; at Winnemucca 4 degrees below zero, or within 2 degrees of the coldest night of the year.

The Lump in His Side.

A man, long noted for intemperate habits, was induced by Rev. John Abbott to sign the pledge in his own way, which he did in these words: "I pledge myself to drink no more intoxicating drinks for one year." Few believed he could keep it, but near the end of the year he again appeared at the temperance meeting without once touching a drop. "Are you going to sign again?" asked Mr. Abbott. "Yes," replied he, "if I can do it in my way," and accordingly he wrote: "I sign this pledge for nine hundred and ninety-nine years, and if I live to that time I intend to take out a life lease!" A few days after he called upon the tavern keeper, who welcomed him back to his old haunt. "Oh! landlord!" said he, as if in pain. "I have such a lump on my left side." "That is because you've stopped drinking," said the landlord, "you won't live long if you keep on." "Will drink take the lump away?" "Yes, and if you don't you'll soon have a lump on the other side. Come, let's drink together," and he poured out two glasses of whisky. "I guess I won't drink, said the former inebriate, "especially if keeping the pledge will produce another lump, for it isn't very hard to bear after all," and with this he drew the lump, a roll of greenbacks, from his pocket, and walked off, leaving the landlord to his own reflections.

A Repeating Shot Gun.

C. M. Spencer, of Hartford, inventor of the Spencer rifle, has invented a single-barrel repeating shotgun, capable of shooting ten times in five seconds. The cartridges are stored in a tube under the barrel, and it is said that two gentle movements of the left hand will expel the exploded shell, recharge and cock the gun. An enthusiastic reporter says the sportsman, without disturbing his aim, can make these movements with the gun at his shoulder.

A singular and touching incident of the burial of Mrs. Carolina Richings-Bernard at Baltimore is related in correspondence from that city. Early in the morning a mocking-bird escaped from its cage in the upper part of the city, and, though diligent search was made, its owner could not find it. That evening, as the last clods of earth were being thrown on the grave of the singer, a succession of trills and clear warbling poured forth from the throat of a mocking-bird perched in a tree near by, and continued until the minister had pronounced the benediction. It was recognized as the missing bird, and at sundown it returned home and went back into its cage, which had been left open in the window.

Ninety-six bales of cotton from the Bellevue Farm, Kern county, have been shipped to the mills at Salem, Oregon. The agent of the mills says that the cotton is superior to that heretofore brought from the Southern States.

About twenty men are now constantly employed at the Ludwig copper mine, Walker river. They are taking out ore, which is shipped to Dayton over the Carson and Colorado Railroad.

An advertisement appears in the Seattle (W. T.) papers warning all persons committing highway robbery or any capital crime that the punishment of such offense is death.

The Electric Light Company have erected in Denver twelve streetlights of 3,000 candle power each, and put them in operation last Monday evening.

The Consolidated Virginia Company Tuesday levied an assessment of thirty cents per share on their capital stock.

California Candidates.

The following gentlemen are named as being willing to accept the office of Governor of California:

For Governor—Geo. Stoneman, Geo. Hearst, James A. Johnson, W. B. C. Brown, B. F. Tattle, Robert Watt, C. P. Berry, Democrats; M. M. Estea, John F. Swift, M. D. Boruck, Horace Davis, J. H. Jewett, James McMill, Shafter, S. O. Houghton, Charles N. Felton, E. H. Pardee, George S. Evans, J. F. Wendell, I. S. Taber, A. L. Rhodes, Republicans.

For Congress—First District—Robert Ferral, W. S. Rosecrans, C. R. Great-house, Democrats; Paul Neuman, H. Davis, Republicans. Second District—H. F. Page, S. G. Nye, W. W. Camron, Henry Egerton, Republicans. Third District—John Daggett, Barclay Henley, Democrats. Fourth District—B. D. Murphy, R. F. Del Valle, J. W. Satterwhite, Democrats; Romualdo Pacheco, W. J. Hill, J. Wiley Wells, S. G. Nye, Frank Adams, Republicans. At large—W. W. Morrow, W. B. May, George F. Baker, Republicans.

Wonderful Nerve.

The Alameda Enquirer tells the following story of wonderful nerve at the explosion of the Pinole Powder Works: In one of the buildings belonging to the powder company nitro-glycerine was made, which is one of the ingredients of the kind of powder—Hercules—made at that place. In this building a white man was making nitro-glycerine, and knowing that this compound would itself explode if he left it, when the other building blew up, only about one hundred feet from him, which shattered the one he was in, he actually kept on with his work, with the building tumbling down over him, and finished the mixture, he was making, and secured the risky stuff from getting wild and causing another terrible blast of destruction. This man who possessed such wonderful nerve, is named James W. McLane.

Electric Light in London.

The present condition of the electric light in London is: Streets are now being lighted with it at one-fourth of the price of gas; incandescent lamps can be introduced into every room of any house so soon as the mains are laid; there can be a separate meter to each house; the lamps can be separately lighted and put out by turning a cock; if one light goes out no other one is affected; the subdivision is so complete that there is no glare, and yet a room with incandescent lamps is far more brightly lighted than with an equal number of gas lamps, and an equal amount of candle power produced by electricity is cheaper than an equal amount produced by gas. In addition, the electric light has no odor, it does not vitiate or heat the air, nor does it, like gas, tarnish paint and decorations.—Truth.

Nevada has been a victim to stock gambling. The people have played at the game for twenty years, and a few men have all the money, while the public have the stock. Utah has let stock gambling alone and it prospers. It takes its metal out of the ground, turns it into silver bars and the money goes into circulation here. If Utah keeps the canker work of stock gambling out of it, it will ever be a prosperous State. Nevada can profit by our example.—Salt Lake Tribune.

ANNUAL MEETING.

THE REGULAR ANNUAL MEETING of the stockholders of the Nevada State Agricultural, Mining and Mechanical Society, will be held at the Pavilion, Reno, Nev., on Monday, February 20th, 1892, for the purpose of electing a Board of Trustees to serve during the ensuing year, and the transaction of such other business as may come before the meeting. By order of the Board of Trustees. H. L. FISH, Secretary. Reno, Jan. 22, 1892-L.

LOOMIS' ADVERTISEMENT.

THURSDAY, FEBRUARY 2, 1882.

PRICE OF DAILY JOURNAL,
12 CENTS PER WEEK.

TOWN AND COUNTY.

Dave Martin sent twelve car-loads of cattle below last night.

Get your seats early for Emerson's Minstrels next Tuesday night.

R. H. F. Variel, District Attorney for Plumas Co., was in Reno yesterday.

The usual dance will take place on Saturday evening at Reform Club Hall.

Dr. Dawson returned yesterday. His sickness below has thinned him down a little.

It is rumored that Johnny Webber one of Reno's boys was killed in a quarrel a few days ago in Oregon.

For some days past the Virginia and Gold Hill Water Company have had from thirty to forty men employed in harvesting ice at the big reservoir on the Divide.

The passenger train from the west yesterday was delayed near Cisco by a slide and along the road by drifts. It arrived here about two P. M., nearly eight hours late.

The Carson Appeal says the marriage of Miss Sallie Fall, sister of Mrs. Gov. Kincaid to Commander Fred Rogers of the United States Navy, will take place at the gubernatorial mansion on Thursday afternoon, only relations of the family will witness the ceremony.

The Commissioner of the General Land Office has decided, in regard to quartz lodes discovered in placer claims, that "lodes discovered within the limits of placer claims, after application for patent for the placer claim was filed, are no bar to the issuance of a patent as applied for."

Bitten by a Dog

Mr. Bailey, the cattle man, well known in Reno, went into the stable of Hitch Bottoms in Virginia, to feed and before noticing the animal, passed so close to a large watch dog kept there that the enemy had him before he knew what was coming. His hand was considerably lacerated.

Sold at Constable's Sale.

The new Wells-Fargo mine was sold at Constable's sale Monday to satisfy an execution issued out of Justice Henderson's court to secure the wages of an unpaid employee. J. B. Duzet bought the entire property of the company for \$131.50. The company have six months to redeem it at that price with interest on the money.

No Money, No Tiger

The Gold Hill News says in Candelaria, faro games are run but half a month. They are opened twenty-four hours before play-day and run as long as the "tiger" is fed. The beast absorbs all the nutriment to be had in fifteen days and then retires to its den until the "bhoys" have the wherewith to again pay for its exhibition.

Suffering Stock.

The cold weather which has prevailed in Northern Nevada for the last three weeks has been very severe on cattle in Elko county. The snow up there was several inches deep and the cold intense, and though not many cattle are known to have succumbed to the inclemency of the season, they are poor and weak. In Humboldt county, says the Silver State, the valleys have been comparatively free from snow, and cattle are doing well.

Belcher Election.

At the annual meeting of the Belcher stockholders Tuesday the old management was unanimously re-elected. The only change in the Board of Directors was the substitution of J. P. Martin for F. A. Frittle, who resigned to take the Governorship of Arizona. Clockett was reappointed Secretary, S. L. Jones, Superintendent and the Bank of California, President. The Secretary's report showed a balance on hand, December 31, of \$12,603.26.

An Important Connection.

Yesterday's Enterprise says. Yesterday morning, about 6 o'clock, connection was made between the south branch of the Sutro tunnel and the drift northward from the Forum shaft. It was a decided hit. The two drifts came together almost to an inch at all points. James Biggs, boss of the shift that made the connection, and an old Hoosier tunnel man, was the first to pass through the opening between the two drifts. There have been about 175 men employed at the Sutro tunnel, and this connection will probably let about 100 of them out. However, there is still a drain to be cut through the drift and drain boxes to be put in; also, No. 2 shaft to be reburied and a good deal of repair work will be required to be done along the main tunnel.

How She Cured Him of Swearing.

The Carson Tribune says the husband of a certain Carson lady was, before his marriage, a furious swearer. Through his wife's influence he left off this bad habit, except one favorite oath word, which clung to him under all circumstances, and which, to the great annoyance of his good wife, he would unconsciously use everywhere—the word "damn." Several months since he rose one cold morning, before the servant came in to make the wood fire, and, after a long effort and fruitless burning of many matches, turned and said "Sallie, this damn fire won't burn." To this the good wife earnestly said "Yes, the damn wood is too green, and the damn servant has forgotten to bring in any damn kindling wood to start the damn fire with." He looked at his wife in absolute dismay, but at once saw the point and said nothing. A longer period than usual passed without the favorite expletive being used, but later on he wanted a basket and said after looking for it, "Sallie, where has the damn basket got to?" The wife quietly, as if putting a child to sleep, said "Ask the damn cook to get the damn basket—damn her, she keeps it." As before, he said nothing, but months have passed and, if he damns anything, it is not where she is. She says it was like taking quinine, and she always went and washed out her mouth afterward, but he is cured.

The "Infant Terrible."

The Washington Republican says "A good joke was told by a brother Senator upon Senator Fair recently. The Nevada Senator called upon a widow of this city, who formerly resided on the Pacific Coast. The widow has a bright little girl five or six years of age. Senator Fair, during his visit, got on such friendly terms with this young Miss that she insisted upon showing him her doll. It was a very common rag doll, but the little girl, of course, thought it a beauty. The Senator left without being aware that the rag doll was in his coat pocket, where the child had put it. He discovered it the next day, however, and instead of returning it to the juvenile owner sent her a box containing a number of very handsome dolls. Upon his next visit to the house of course the little girl and her mother thanked him for his present. It chanced that there were several persons in the parlor on the occasion. Looking into the Senator's face the little child said, 'My mamma said you could have sent her \$1,000, instead of those dolls, and never missed it, you are so rich.'"

A While Longer

The Enterprise says "We understand that the office of United States Surveyor General will not be removed from this city to Reno till some time next March. We are glad to have General Davis with us till March. Our people do not care much about having the office here, but they do not like to part with the General. However, what cannot be cured must be endured, and we are glad that he was not manipulated further away than Reno. He shall have a good send-off when the time comes for him to take his departure. Bill Mooney says he will see that he goes over the Geiger Grade in the best four-in-hand rig to be had in his stable, and there will be no lack of friends to see him set sail. His old chums here will probably get into mourning when he takes his departure with his 'boys.' Jim Butler, too, will mourn and be mourned. The idea of Jim living anywhere else than on the Comstock is ridiculous. He is one of the croppings of the lode, and as it is a way up in the thousands, nearly all gold."

The Dead Indians.

The Carson Tribune says our Americanized Indian friend, Captain Jim, was at the scene of the railroad disaster Tuesday, and from him we glean that the two Indians killed were Putes and the one hurt a boy of that tribe. During the conversation this reporter asked Jim what he thought as to where the two Indians had gone, and this was the answer "Well, you see I know he all same white man—some heap good, some dam bad. Putes heap drink whisky, heap steal all same dam white man. I don't know them Putes, but they lived in Virginia City." "Well, what about that?" was the question. "What you mean to give us?" said Jim, "you take me for a scab?" All Pute in Virginia what-have live there one year go to hell sure, and them poor fellow he heap roast meat this time." Now Jim is somewhat of a scholar; he reads and can write, and as straight in his dealings as anyone, and he sometimes attends revival meetings and treasures up what he hears.

The Injured Men.

Engineer Tom Clark wanted to go up to Virginia with his train Tuesday, and would have done so but for his friends interfering. A tough individual is that same T. C. L. Robinson, the fireman, is doing well and Dr. Smart, the attending physician, feels confident of having him out in a few days.

Notice.

If you want pianos and organs, or music books, sheet music, or anything in the music line you will please call on Brookins. We can safely say that Mr. Brookins has the nicest assortment of pianos, organs sheet music, music books and every thing in the music and variety line we ever saw outside of any of the larger cities; and for prices he beats San Francisco or any house on the coast. His instruments come direct from the East, and he has the agency of thirteen different factories. Brookins can supply you with any make you desire. See his B. F. Baker upright piano which is never out of tune. Price \$375. See his Nevada organ, the finest parlor organ in the world, price \$175. Brookins fully guarantees everything, and trades new instruments for old ones, allowing just what the old ones are worth. Mr. Brookins does all kinds of repairing to organs, pianos and all other musical instruments at very low prices. Try Brookins, and you will get your moneys worth. Address or call at C. J. Brookins' piano warerooms, Reno, Nevada.

A good house and lot for sale within two blocks of Virginia street, price \$500. Apply at this office.

Have you seen those beautiful enamel frames, statuettes, vases, toilet sets and other cases at Osburn & Shoemaker's.

Bird Cages and Feather Dusters. A fine assortment just received at Osburn & Shoemaker's.

Sewing Machines.

Can be bought cheaper at Osburn & Shoemaker's than elsewhere in Reno.

Do not be persuaded to buy a "Cheap John" piano, but purchase the Henry F. Miller piano, which is used by artists more than all the other makes combined.

M. J. Stimson, Agt.

Picture Frames and Mouldings. Can be bought for cost at Osburn & Shoemaker's.

Free of Cost.

Dr. King's New Discovery for Consumption, Coughs and Colds, Asthma, Bronchitis, etc., is given away in trial bottles free of cost to the afflicted. If you have a severe cough, cold, difficulty of breathing, hoarseness or any affection of the throat or lungs by all means give this wonderful remedy a trial. As you value your existence you cannot afford to let this opportunity pass. We could not afford, and would not give this remedy away unless we knew it would accomplish what we claim for it. Thousands of hopeless cases have already been completely cured by it. There is no medicine in the world that will cure one-half the cases that Dr. King's New Discovery will cure. For sale by R. E. Queen, west side Virginia street, Reno.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all kinds of skin eruptions. This salve guaranteed to give satisfaction in every case or money refunded. Price 25 cents per box. For sale by R. E. Queen, west side of Virginia street, Reno.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in an incurable Lung Disease, or Consumption. BROWN'S BRONCHIAL REMEDY does not dis- order the stomach like cough syrups and bal- sams, but acts directly on the inflamed parts, al- lying irritation, gives relief in Asthma, Bron- chitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public "sp" actors are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians and always gives perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-mer- ited rank among the few simple remedies of the age. Sold at 25¢ a box everywhere.

AYER'S SARSAPARILLA.

For Purifying the Blood.

This compound of the vegetable sarsaparilla, Dock, Scillaire, and Mandrake with the tincture of Potash and Iron, makes a most effective cure of a series of complaints which are very prevalent and afflictive. It purifies the blood, purges out the lurking humors in the system, that un- dermine health and settle into troublesome dis- orders. Eruptions on the skin are the appear- ance on the surface of humors that should be ex- pelled from the blood. Internal derangements are the determination of these same humors to some internal organ or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone the disorders they produce disappear, such as Ulceration of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Itch, Pustules, Blisters, Boils, Tumors, Tetters and Salt Rheum, Scald Head, Ring-worm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility. With these departs health returns.

NOTICE.

NOTICE is hereby given that a stock dividend of nineteen (19) per cent. has this day been declared on \$394 shares of the capital stock of the Jones & Kinkaid G. & S. M. Co. delivered immediately upon presentation of the certificate.
By order of the Board of Trustees.
PIERCE EVANS, Secretary.
Reno, Nev., November 26, 1881.

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF NEVADA, in and for the County of Washoe.
The State of Nevada sends ROSE HUTCHINSON, Greeting: You are hereby required to appear in an action commenced against you as Defendants by W. T. Kirkpatrick as Plaintiff in the District Court of the Second Judicial District in and for the County of Washoe, State of Nevada, and answer the Complaint therein within ten days after the service on you of this Summons, (exclusive of the day of service) if served in said County; or twenty days, if served out of said County, but within said District, and in all other cases forty days—on judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment against Minnie H. Hoyer in the sum of four hundred and sixty dollars principal, and seventy dollars interest, on a promissory note which Plaintiff alleges one Minnie H. Hoyer, executed to Plaintiff February 12th, 1881, payable one year after date, with interest at the rate of one and one-half per cent. per month, payable quarterly, and providing that if the interest be not paid when due then the principal and interest should become due; said complaint also alleges that the said Minnie H. Hoyer has failed to pay the interest, whereby the Note became due; also alleges that said Minnie H. Hoyer executed a mortgage to secure said Note on the following described land: Beginning at the SW corner of lot one (1) in Block "B," thence the boundary runs northerly forty feet with the east line of Virginia street; thence at right angles east ninety feet; thence at right angles south forty feet to the north line of Second street; thence west along the north line of Second street ninety feet to the place of beginning, all in Block "B," in the town of Reno, Washoe county, Nevada; also alleging that said Minnie H. Hoyer has since the execution of said note and mortgage married defendant F. M. Peck, and they are now husband and wife, and asking to have said mortgage foreclosed; also for an attorney's fee of fifteen percent, and asking that all the right of Defendant Rosa Hutchinson in and to said property be foreclosed and declared junior and subsequent to Plaintiff's mortgage, and asking for a sale of the mortgaged premises and such other and further relief as the Court may deem just and equitable, all of which will more fully appear from the Complaint which is on file in the office of the Clerk of said Court at Reno, in said county. And you are further notified, that if you fail to appear and answer said Complaint, the said Plaintiff will apply to the Court for the relief demanded.
In testimony whereof, I, Geo. A. Rankin, have hereunto set my hand this 6th day of January, A. D. 1882.
GEO. A. RANKIN, Att'y for Plff.
Reno, Jan. 7, 1882-1m

AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR

To its Natural Vitality and color.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.
AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brassy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the Vigor is prized for its grateful (and agreeable) perfume and valued for the soft lustre and richness of tone it imparts.
